

**South East Florida Glass and Hardware**

**Brand Name: SOUFLO**

**Product: Shower Enclosure Monaco Series**

**Description:**

Barn Door style shower enclosure.

Fixed panel and sliding door.

Available in Tub and Shower height

**SPEC SHEET**  
**Monaco Series**  
**SOUFLO**

**Glass:**

Safety:

Tempered.

Compatible with ANSI.Z97.1-2015 standards.

Once breakage occurs, the glass disintegrates into small cubical fragments which are relatively harmless to human body. Fragments are compatible with Cat. II tempering.

Material:

First class float glass.

Hardness:

After tempering, hardness, impact resistance and bending resistance are 4 to 5 times that of common non-tempered float glass.

**Metal:**

Hardware:

Uses high strength anti corrosion SUS304 Stainless Steel.

Machine-polished or brushed.

Use high strength anti corrosion SUS304 Stainless Steel Pull.

High quality rollers slide smoothly and quietly, are wear-resistance and have high loading capacity

**Care:**

Tempered glass may shattered with small impacts to the edges. Handle with care.

Do not use abrasive cleaning products to clean any of the metal parts
